

# ULTRA FAUCETS

Single Handle Bar Faucet With Pull Down Spray  
Model NO.: UF13900  
UF13903  
UF13905

## INSTRUCTION

### Tools:

- Adjustable Wrench
- Pliers
- Pipe Wrench
- Screwdriver
- Teflon Tape

### Maintenance:

Your new bar faucet is designed for years of trouble-free performance. Keep it looking new by cleaning it periodically with a soft cloth. Avoid abrasive cleaners, steel wool and harsh chemicals as these will dull the finish and void your warranty.

### Preparation / Assembly

1 Shut off water supplies. Remove old faucet. Clean sink surface in preparation for new faucet.

2 Place optional Flange on bottom of new faucet before position faucet through mounting hole.

3 Secure the faucet to sink by installing plastic washer, steel washer and nut onto it. Tighten with wrench.

4 Apply teflon tape onto threads of water supplies. Use wrench when tightening the hose connection, do not overtighten.

5 Important: After installation is completed. Turn on water supply and allow both hot and cold water to run for at least one minute each. While water is running, check for leaks. Reinstall Spray head. Your new faucet is now ready to use.
